HomeCare FALLS & WANDERING

cura¹ HomeCare Alarms

Affordable home care solutions to increase quality of life for the elderly, frail or dementia sufferers and their carers.

Wireless Call Buttons With Caregiver Pager

When mobility is precious or restricted, a push button paging system preserves independence and privacy while staying secure.

- Super-simple setup and operation.
- Portable (no wires), versatile and long battery life.
- Pager range is suitable for typical residences.*
- Audible chime / alarm pager options.
- Ideal for those recovering from illness, the elderly or people with disabilities.
- An affordable aid to assisted living for seniors.
- Call Buttons can be worn as a pendant, carried in a pocket, or mounted on a wall, bed or wheelchair.
- Lanyard straps and mounts included.
- Pager includes belt clip.

Wireless Motion Sensor With LED Pager

See over for options

Ideal for carers monitoring the movements of frail, elderly or dementia sufferers, for when they approach dangerous areas, or get out of a bed or chair.

- Super-simple setup and operation, just position the sensor, then switch on and test.
- Exceptionally narrow detection zone reduces false alarms.
- Portable (no wires), versatile and long battery life.
- Pager range is suitable for typical residences.*
- Audible chime / vibrate pager options.
- Motion Sensor can be silent when an alarm condition is active.
- Sensor detects motion up to 8m.
- Sensor can be powered by optional AC adaptor (not included).

PP005
