Helping To Care

... detect seizure movement in adults & infants

3010 SeizureAlert Seizure Movement Detection Alarm

Easy installation & setup. Provide peace of mind for carers and sufferers of convulsive seizures in adults and infants. It allows the person being monitored a sense of privacy and security, with comfort in knowing that sleep time can be a safe and enjoyable experience.

3010 SEIZUREALERT

- Detect & raise an alarm as a seizure occurs.
- Detect seizure movement and associated sounds in adults & infants as light as 6 kg.
- Easy installation & setup.
- Non invasive - sensor pad installed discretely under the mattress. Nothing to attach to the patient.
- Economical (no ongoing costs or consumables).
- Integrated plug pack with battery backup means no downtime or annoying recharging procedures.
- Minimal false alarms.
- Can work as a standalone alarm.
- Connects easily with nurse call or third party alarm devices.
- Add a 3508 LED Pager for easy cordless alarm notifications (use product no. 3011).
