2624	Cordless Floor Mat			Sends message when stepped on. Reset at Console.
2719	Cordless Pad Transmitter			Required by Cordless Pads/Mats, sends a signal to the 2501, 2544, 2549, 2700, 3500, 3501.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2690	Universal Bed Pad	✓		Sends OUT OF BED message when getting out of bed. Resets OUT OF BED when back in bed or via Console. *Requires 2720 Transmitter to function*
2691	Universal Chair Pad	✓		Sends OUT OF CHAIR message when getting out of chair. Resets OUT OF CHAIR when back on chair or via Console. *Requires 2720 Transmitter to function*
2720	Universal Cordless Pad Transmitter			Required by Universal Pads/Mats if not connected via lead. Sends a signal to the 2700. *18 month battery life*
2670	Cordless PreAlert Bed Pad	✓		The Console provides early warning by alarming when sitting on the edge of the bed. The monitor resets when back in bed or via Console. Includes Transmitter.
2671	Cordless Single Fold Floor Mat			Positioned strategically in an area of risk. Initiates alarm when stepped on. Reset on Console. Can be folded for storage or transportation. *Requires 2719 Transmitter to function*
2672	Cordless Dual Fold Floor Mat			Positioned strategically in an area of risk. Initiates alarm when stepped on. Reset on Console. Can be folded for storage or transportation. *Requires 2719 Transmitter to function*
2588	PET (Personal Emergency Transmitter)			Sends message when RED button pressed. Reset on Console.
2595	Wristband Alarm Transmitter			Sends message when ORANGE button is pressed. Reset on Console.
2599	Wireless SOS Call Button			Wall mountable emergency call point. Initiates alarm when pressed. Reset on Console.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2721	iBeam			Sends message when triggered. Features a narrow detection zone to reduce false alarms. Triggers when a patient breaks the beam. Reset on Console.
3502	ActiveCare Wireless Handset (Includes wall bracket)	✓		Sends message when RED button pressed. Includes GREEN wireless reset button or reset on Console.
3503	ActiveCare Magnetic Reed Switch			Sends message when door opened. Can also be used as a simple push button call point. Reset on Console.
2558	Wireless Waterproof Call Button w/pullcord	✓		Sends message when RED button pressed or cord pulled. Includes wireless reset button or reset on Console.
2404	cura1 12V Plug Pack			Plug Pack included with 3500 Console.
2552	DoorAlert Monitor	✓		Detects wandering residents wearing 2572 Wristband Transmitters. Reset on DoorAlert Monitor will reset Console *See 2552 DoorAlert Compatibility Matrix for products required/optional*
2572	Resident Wristband Transmitter			Identifies when a resident approaches or exits a door that is protected with a 2552 DoorAlert Monitor. *Requires 2552 DoorAlert Monitor*
2700	Six Channel Cordless Falls Monitor			Can be mounted on a wall in or outside the patient's room. Alarms on its bright, visible seven-segment display, plays an audible adjustable tone and can be plugged into a nurse call system. Reset on Falls Monitor does NOT reset Console. *See Six Channel Cordless Falls Monitor Compatibility Matrix for products required/optional*

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

• Easy installed door monitoring • Automatically detects wandering residents and alerts caregivers • Adjustable range • Can be connected to a nurse call system & to electric lock to automatically lock doors • 16 Door's and 6 strips per door • Optional Night Mode feature, can automatically lock doors at night • Optional dry contact relay mode • Latches doors locked until monitored resident leaves vicinity (can be overridden by staff)		Self Reset	**2552 Door Monitoring System** Suitable for nursing homes and private/public hospitals where nurse call systems are installed. **What's in the box:** 1 x 2552 433MHz Door Strip 1 x 2404 12V DC Regulated Plug Pack 1 x 2642 Caregiver Reset Key 1 x 2421 Magnetic Reed Switch	
2501	LRCS Care Station (Long Range Call System)	✓		Uniquely identifies 1000 resident transmitters. Monitor's up to 16 door locations. High visibility flashing LED light with adjustable sound.
3500	ActiveCare Console	✓		Monitors up to 16 doors. Reset on DoorAlert Monitor will reset Console
3501	ActiveCare LCD Pager	✓		Allows for staff mobility. Reports all alerts on a limited alpha / numeric 7-character screen. Optional 3504 Bracket Mount & 3506 Soft Cover available. *DoorAlert Monitor requires 3500 ActiveCare Console to send message to pager*
2572	Resident Wristband Transmitter			Resident wears on wrist or with a lanyard. Identifies when a resident approaches or exits a door that is protected with a 2552 Door Monitor.
2575	Caregiver Reset Transmitter			For use by caregivers to reset 2552 Door Monitor alarms remotely.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2569	Wrist Straps			Replaceable wristband straps sold individually or in packs of 10.
2642	Caregiver Reset Key			Caregiver Reset Key can be used to reset at point of DoorAlert Monitor.
2577	System Tester			Test resident Wristband Transmitters operation battery condition.
2404	12V Plug Pack			Plug Pack 12 V DC 2A.
2567	Lanyards with Safety Break Clip			Suitable for Transmitters.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

• Large 7 character numeric / limited alpha digital display • Red reminder LED • Simple programing • Selectable OFF / Vibrate / Vibrate +Tone • Alarm mute facility with auto reminder vibrate until alarm canceled • Alarm reviw via menu button • Selectable alarm cancel • Includes belt clip • Optional wall bracket available		Self Reset	**3501 ActiveCare Pager Compatability Matrix** Ideal for private homes, shared care homes, sugeries or small care facilities, and larger facilities when paired with the 3500 ActiveCare Console **What's in the box:** 1 x 3501 ActiveCare LCD Pager 1 x Quick Start Guide 2 x High Quality AA Batteries	
				3501 ActiveCare Pager
3515	Cordless Under Mattress Bed Pad	✓		Located UNDER MATTRESS Sends OUT OF BED message when getting out of bed. Resets OUT OF BED when back in bed or via Pager. *Requires 2719 Transmitter to function*
2629	Cordless Bed Pad	✓		Sends OUT OF Bed message when getting out of bed. Resets OUT OF BED when back in bed or via Pager. *Requires 2719 Transmitter to function*
2630	Cordless Chair Pad	✓		Sends OUT OF CHAIR message when getting out of chair. Resets OUT OF CHAIR when back on chair or via Pager. *Requires 2719 Transmitter to function*
2624	Cordless Floor Mat			Sends message when stepped on. Reset on pager. *Requires 2719 Transmitter to function*
2719	Cordless Pad Transmitter			Required by Cordless Pads/Mats. Sends a signal to the 3501 OR Sends a signal to whichever device it is programmed to (2700, 3500, 2544, 2549) *1 year battery life*
2690	Universal Bed Pad	✓		Sends OUT OF BED message when getting out of bed. Resets OUT OF BED when back in bed or via Pager. *Requires 2720 Transmitter to function*

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2691	Universal Chair Pad	✓		Sends OUT OF CHAIR message when getting out of chair. Resets OUT OF CHAIR when back on chair or via Pager. *Requires 2720 Transmitter to function*
2720	Universal Cordless Pad Transmitter			Required by Universal Pads/Mats if not connected via lead. Sends a signal to the 2700. *18 month battery life*
2670	Cordless PreAlert Bed Pad	✓		The monitor provides early warning by alarming when sitting on the edge of the bed. The monitor resets when back in bed or via Pager. Includes Transmitter.
2671	Cordless Single Fold Floor Mat			Positioned strategically in an area of risk. Initiates alarm when stepped on. Reset on Pager. Can be folded for storage or transportation. *Requires 2719 Transmitter to function*
2672	Cordless Dual Fold Floor Mat			Positioned strategically in an area of risk. Initiates alarm when stepped on. Reset on Pager. Can be folded for storage or transportation. *Requires 2719 Transmitter to function*
2588	PET (Personal Emergency Transmitter)			Sends message when RED button pressed. Reset on Pager.
2721	iBeam			Sends alarm message when triggered. Features a narrow detection zone to reduce false alarms. Triggers when a patient breaks the beam. Reset on Pager.
2595	Wristband Alarm Transmitter			Sends alarm message when ORANGE button is pressed. Reset on Pager.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2599	Wireless SOS Call Button			Wall mountable emergency call point. Initiates alarm when pressed. Reset on Pager.
3502	ActiveCare Wireless Handset (includes wall bracket)	✔		Sends message when RED button pressed. Includes GREEN wireless reset button or reset on Pager.
3503	ActiveCare Magnetic Reed Switch			Sends message when door opened. Can also be used as a simple push button call point. Reset on Pager.
2558	Wireless Waterproof Call Button w/pullcord	✔		Sends message when RED button pressed or cord pulled. Includes wireless reset button or reset on Pager.
2552	DoorAlert Monitor			Requires 3500 ActiveCare Console to send message to pager. Reset on DoorAlert Monitor will reset Pager. *See 2552 DoorAlert Compatibility Matrix for products required/optional*
2572	Resident Wristband Transmitter			Identifies when a resident approaches or exits a door that is protected with a 2552 Door Monitor. Pager message: Door ID# + Resident ID# *Requires 2552 DoorAlert Monitor*
3504	ActiveCare Bracket			Pager clips into bracket.
3506	ActiveCare Pager Soft Cover			Optional soft touch removable protection case provides extra protection for the 3501 Pager.
3500	ActiveCare Console	✔		Alarms on its bright, visible seven-segment display, plays an audible adjustable tone. Can be paired with the 3501 Pager and up to two extra 3500 Consoles acting as slaves. Reset on Console will also reset Pager.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

• Easy installed door monitoring. • Simple plug & play setup and operation. • Automatically detects wandering residents and alerts caregivers • Adjustable range • Can be connected to a nurse call system. • Can connect to electric lock to automatically lock doors and/or connectible to third party alarm devices. • Latches doors locked until monitored resident leaves vicinity (can be overridden by staff).			**4000 DoorAlert LT Monitor** Suitable for residential or institutional use. **What's in the box:** 1 x 4000 Door Strip 1 x 2569 Resident Writsband Strap 1 x 2589 White Buckle Wrist Strap 1 x 2404 12V DC Regulated Plug Pack 1 x 2642 Caregiver Reset Key 1 x 2567 Lanyard W / Safety Break Clip 1 x 2421 Magnetic Reed Switch 1 x Quick Start Guide	
4001	Resident Wristband Transmitter			Resident wears on wrist or with a lanyard. Identifies when a resident approaches or exits a door that is protected with a 4000 Door Monitor.
4002	DoorAlert LT Reset Button			For use by caregivers to reset 4000 Door Monitor alarms remotely.
2569	Plastic Wrist Straps			Replaceable wristband straps sold individually or in packs of 10.
2589	White Buckle Wrist Strap			Replaceable wristband strap with buckle sold individually.
2642	Caregiver Reset Key			Caregiver Reset Key can be used to reset at point of DoorAlert LT Monitor.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2404	12V Plug Pack			Plug Pack 12 V DC 2A.
2567	Lanyards with Safety Break Clip			Suitable for Transmitters.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

• Red LED visual alarm indicators on front face. • LED indicator on top notifies by colour (Green, Red, Amber) feature that monitor is in. • Simple programing. • Volume button has three options (High, Low & Vibrate). • Selectable alarm cancel. • Includes belt clip. • Optional wall bracket available.		Self Reset	**3501 ActiveCare Pager Compatability Matrix** Ideal for private homes, shared care homes, sugeries or small care facilities. **What's in the box:** 1 x 3508 ActiveCare LED Pager 1 x Quick Start Guide 2 x High Quality AA Batteries	
				3501 ActiveCare Pager
3515	Cordless Under Mattress Bed Pad	✓		Located UNDER MATTRESS Sends OUT OF BED message when getting out of bed. Resets OUT OF BED when back in bed or via Pager. *Requires 2719 Transmitter to function*
2629	Cordless Bed Pad	✓		Sends OUT OF Bed message when getting out of bed. Resets OUT OF BED when back in bed or via Pager. *Requires 2719 Transmitter to function*
2630	Cordless Chair Pad	✓		Sends OUT OF CHAIR message when getting out of chair. Resets OUT OF CHAIR when back on chair or via Pager. *Requires 2719 Transmitter to function*
2624	Cordless Floor Mat			Sends message when stepped on. Reset on pager. *Requires 2719 Transmitter to function*
2719	Cordless Pad Transmitter			Required by Cordless Pads/Mats. Sends a signal to the 3501 OR Sends a signal to whichever device it is programmed to (2700, 3500, 2544, 2549) *1 year battery life*
2690	Universal Bed Pad	✓		Sends OUT OF BED message when getting out of bed. Resets OUT OF BED when back in bed or via Pager. *Requires 2720 Transmitter to function*
2691	Universal Chair Pad	✓		Sends OUT OF CHAIR message when getting out of chair. Resets OUT OF CHAIR when back on chair or via Pager. *Requires 2720 Transmitter to function*

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2720	Universal Cordless Pad Transmitter			Required by Universal Pads/Mats if not connected via lead. Sends a signal to the 2700. *18 month battery life*
2670	Cordless PreAlert Bed Pad	✓		The monitor provides early warning by alarming when sitting on the edge of the bed. The monitor resets when back in bed or via Pager. Includes Transmitter.
2671	Cordless Single Fold Floor Mat			Positioned strategically in an area of risk. Initiates alarm when stepped on. Reset on Pager. Can be folded for storage or transportation. *Requires 2719 Transmitter to function*
2672	Cordless Dual Fold Floor Mat			Positioned strategically in an area of risk. Initiates alarm when stepped on. Reset on Pager. Can be folded for storage or transportation. *Requires 2719 Transmitter to function*
2588	PET (Personal Emergency Transmitter)			Sends message when RED button pressed. Reset on Pager.
2721	iBeam			Sends alarm message when triggered. Features a narrow detection zone to reduce false alarms. Triggers when a patient breaks the beam. Reset on Pager.
2595	Wristband Alarm Transmitter			Sends alarm message when ORANGE button is pressed. Reset on Pager.
2599	Wireless SOS Call Button			Wall mountable emergency call point. Initiates alarm when pressed. Reset on Pager.
3502	ActiveCare Wireless Handset (includes wall bracket)	✓		Sends message when RED button pressed. Includes GREEN wireless reset button or reset on Pager.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

3503	ActiveCare Magnetic Reed Switch			Sends message when door opened. Can also be used as a simple push button call point. Reset on Pager.
2558	Wireless Waterproof Call Button w/pullcord	✓		Sends message when RED button pressed or cord pulled. Includes wireless reset button or reset on Pager.
3504	ActiveCare Bracket			Pager clips into bracket.
3506	ActiveCare Pager Soft Cover			Optional soft touch removable protection case provides extra protection for the 3501 Pager.
2700	Six Channel Cordless Falls Monitor	✓		Can be mounted on a wall in or outside the patient's room. Alarms on its bright, visible seven-segment display, plays an audible adjustable tone and can be plugged into a nurse call system. Reset on Falls Monitor will also reset Pager *See Six Channel Cordless Falls Monitor Compatibility Matrix for products required/optional*

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

• Five metres detection range • Thirty metres range (signal) • One-year battery life dependant on usage • Durable ABS enclosure • Narrow detection zone reduces false alarms • On / Off switch to conserve battery when not in use • Works with other cura1 cordless devices • Has a green LED detection indicator • Adjustable bracket to fine-tune positioning		Self Reset	**2721 iBeam** Suitable for private residences and care homes, its versatility turns a basic room into a highly optioned care and monitoring facility offering multiple solutions in one simple to operate unit. **What's in the box:** 1 x 2721 iBeam 1 x Mounting bracket + screws 1 x Quick Start Guide 3 x High Quality AA Batteries 1 x Optional EzyStand	
2700	Six Channel Cordless Falls Monitor	✓		Can be mounted on a wall in or outside the patient's room. Alarms on its bright, visible seven-segment display, plays an audible adjustable tone and can be plugged into a nurse call system.
2544	Cordless Multiport Expander	✓		Plugged directly into a nurse call system. Triggers an alarm through a N/C or N/O 6.35mm Stereo T & S output.
2549	Cordless Multiport Expander with Bracket Mount	✓		Plugged into a nurse call system via RJ12 connector. Triggers an alarm through a N/C or N/O preferred lead output.
3501	Caregiver LCD Pager	✓		Can be mounted on a wall or carried by a caregiver. Shows alarm information on its alpha / numeric 7-character screen when movement is detected.
3508	Activecare LED Pager	✓		Can be mounted on a wall or carried by a caregiver. Alarms via sound or vibrate and Red LED illuminates when movement is detected.
3500	ActiveCare Console	✓		Can be mounted on a wall or stood on a desk. Alarms on its bright, visible seven-segment display and plays an audible adjustable tone. It can be paired with the 3551 Pager and up to two extra 3500 Consoles acting as slaves.

CM011-4

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2723	EzyStand			EzyStand can be installed adjacent to a bed or chair, or across a doorway. With our sturdy, adjustable-height EzyStand, precise positioning of the iBeam could not be simpler.
2404	cura1 12V Plug Pack			Plug Pack

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

• Up to 1.5km range • No structural cabling required • Database logging • Duress location finding - zones • Mobile phone notifications • Pager notifications • Email notifications • Can monitor up to 3,000 devices • Two separate maintenance notifications		**2501 LRCS Care Station** The 2501 LRCS Care Station is the heart of the Long Range Call System. LRCS requires no structural cabling and boasts a range of up to 1.5km, suitable for residential, nursing homes, facilities, staff duress and more! The LRCS can be as large or as small as required with a capacity of up to 10 Care Stations and 48 Zone Repeaters each handling up to 64 call points. Note: A maximum of 16 Cordless Bed / Chair Pads can be used with the system.	
2502	LRCS Zone Repeater		Fully transparent to all LRCS compatible equipment, repeats signal and boosts range, optional backup battery pack product code 2508.
2503	LRCS Combo Callpoint		Battery powered & fully supervised wireless operation. Four levels of call priority: “Call”, “Staff”, “Emergency” and “Presence”. Features RED LED call reassurance indicators for added safety.
2506	Handset for Combo Callpoint (optional)		Optional extra for the 2503 LRCS Combo Callpoint, adds a handset that triggers a call, useful if the Callpoint is going to be mounted bedside.
2507	LRCS Waterproof Callpoint		With a battery life of one year depending on frequency of usage, initiates a call to the LRCS Care Station, features an integral pullcord and RED LED call reassurance indicator for added safety.
2504	LRCS Multi-coloured overdoor light		Highly visible LED indicators showing call priority. Features a distinct audible alarm, can be paired with up to ten Combo or Waterproof Callpoints. Acts as a wireless signal repeater.
2596	Wireless Waterproof Call Button with Reset & RJ10 Input		Battery powered curtailed alternative to 2503. Three levels of call priority: “Call”, “Emergency”, “Presence”. Features RED LED call reassurance indicators for added safety.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2597	Pendant Callpoint with RJ10 Plug		Triggers a call, useful if the call button is going to be mounted bedside. Plugs directly into 2596 Wireless Waterproof Call Button RJ10 connection.
2509	LRCS Database Software		Highly useful software for managing calls, logs all events into a database which can be easily searched by date / time, staff can enter patient details which can be displayed with specific alarms.
2573	Wristband Duress Transmitter		Can be worn on the wrist of staff or patients to be used as either a duress alarm or call button.
2552	Door Alert Strip Receiver 433.92Mhz		Pairs directly to the 2501 LRCS Care Station expanding its functionality, adds a secure way to monitor which patients can access specific areas. Highly suitable for dementia wards and wandering residents.
2719	Cordless Transmitter		Can be used with any cura[1] Cordless Bed Pad or Chair Pad. Pairs directly to the 2501 LRCS Care Station to expand its functionality. Up to 16 transmitters can be paired with each care station.
3515	Cordless Under Mattress Bed Pad		Used with the 2719 Cordless Transmitter, the Pad is positioned under the mattress for superior comfort.
2629	Cordless Bed Pad		Used with the 2719 Cordless Transmitter, the Pad is positioned above the mattress.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2630	Cordless Chair Pad		Used with the 2719 Cordless Transmitter, the Pad is positioned on a wheelchair / chair.
2642	Caregiver Reset Key		Allows caregivers to reset LRCS cura1 equipment alarms. Allows authorised staff to program various cura1 equipment. Key chain can be attached to belt or clothing. Lightweight.
2512	LED POCSAG Display Single		Bright LED display with high visibility, adds an extra safety measure assuring that staff will see an alarm / call.
2513	LED POCSAG Display Double		Bright LED display on both sides with high visibility, adds an extra safety measure assuring that staff will see an alarm / call.
2533	LRCS 4 Way Relay Board		Provides a low level hardwired interface to third party equipment, can be wired to trigger security alarms, CCTV, building automation, access control and anything that accepts a relay input. This board can be assigned in software to activate specific relays under certain conditions providing either an NC or NO output (selected by hardware) that provides a momentary relay output configurable from 1 – 99 seconds.
2543	Paging Interface		Sends alarm information from the 2501 LRCS Care Station to a printer and / or local alpha numeric pagers via the 2547 Paging Transmitter, this offers simple paging with no computer required.
2547	Salcom 12-62 POCSAG VHF Paging Transmitter		Programable power output. Programable operating frequency. Over temperature cutout. Connects directly to cura1 Paging Interface or to PC running the 2509 LRCS Software.
2548	POCSAG VHF Alphanumeric Pager		4 line, 84 character display. Easy to read back lit display. Time & date display 12 or 24 hour clock. Message time & date stamping.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

Compatibility Matrix – 3010 SeizureAlert Monitor

Back To Index

cura1.com 1300 12 2273

• Detect & raise an alarm as a seizure occurs • 6.35mm stereo T & S output for connecting to a nurse call system • Battery backup built in • Easy to program		Self Reset	**3010 SeizureAlert Monitor** Suitable for nursing homes and private/public hospitals where nurse call systems are installed or a home environment. **What's in the box:** 1 x 3010 SeizureAlert Monitor 1 x Instruction manual	
3501	ActiveCare LCD Pager	✓		Alarms when a seizure is detected, can be set to play a tone or vibrate to avoid waking others. Optional 3504 Mounting Bracket available.
3515	Cordless UNDER MATTRESS Bed Pad	✓		Located under a mattress, triggers an alarm on either the 3501 or 2700 monitor when the patient gets out of bed.
2629	Cordless Bed Pad	✓		Located on top of a mattress, triggers an alarm on either the 3501 or 2700 monitor when the patient gets out of bed.
2630	Cordless Chair Pad	✓		Triggers an alarm on either the 3501 or 2700 monitor when the patient gets out of a wheelchair / chair.
2624	Cordless Floor Mat			Triggers an alarm on either the 3501 or 2700 monitor when stepped on.
2588	PET (Personal Emergency Transmitter)			Sends message when RED button pressed. Reset at console.

CM013-2

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2719	Cordless Pad Transmitter			Required by Cordless Pads/Mats. Sends a signal to the 3501.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

• Up to 500m range • No structural cabling required • Database logging • Duress location finding - zones • Mobile phone notifications • Pager notifications • Email notifications • Can monitor up to 3,000 devices • Two separate maintenance notifications		**2501 LRCS Care Station** The 2501 LRCS Care Station is the heart of the Long Range Call System. LRCS requires no structural cabling and boasts a range of up to 500m, suitable for residential, nursing homes, facilities, staff duress and more! The LRCS can be as large or as small as required with a capacity of up to 10 Care Stations and 48 Zone Repeaters each handling up to 64 call points. 3515	Cordless Under Mattress Bed Pad		Used with the 2719 Cordless Transmitter, the Pad is positioned under the mattress for superior comfort.
2629	Cordless Bed Pad		Used with the 2719 Cordless Transmitter, the Pad is positioned above the mattress.
2630	Cordless Chair Pad		Used with the 2719 Cordless Transmitter, the Pad is positioned on a wheelchair / chair.

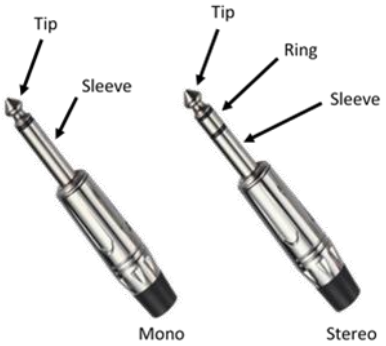

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.

2642	Caregiver Reset Key		Allows caregivers to reset FallsPro cura1 equipment alarms. Allows authorised staff to program various cura1 equipment. Key chain can be attached to belt or clothing. Lightweight.
2512	LED POCSAG Display Single		Bright LED display with high visibility, adds an extra safety measure assuring that staff will see an alarm / call.
2513	LED POCSAG Display Double		Bright LED display on both sides with high visibility, adds an extra safety measure assuring that staff will see an alarm / call.
2533	LRCS 4 Way Relay Board		Provides a low level hardwired interface to third party equipment, can be wired to trigger security alarms, CCTV, building automation, access control and anything that accepts a relay input. This board can be assigned in software to activate specific relays under certain conditions providing either an NC or NO output (selected by hardware) that provides a momentary relay output configurable from 1 – 99 seconds.
2543	Paging Interface		Sends alarm information from the 2501 LRCS Care Station to a printer and / or local alpha numeric pagers via the 2547 Paging Transmitter, this offers simple paging with no computer required.
2547	Salcom 12-62 POCSAG VHF Paging Transmitter		Programable power output. Programable operating frequency. Over temperature cutout. Connects directly to cura1 Paging Interface or to PC running the 2509 LRCS Software.
2548	POCSAG VHF Alphanumeric Pager		4 line, 84 character display. Easy to read back lit display. Time & date display 12 or 24 hour clock. Message time & date stamping.

All radio frequency (RF) signal transmission and reception distances quoted are indicative only and based on testing carried out under ideal conditions. Actual transmission and reception distances may vary and be dependent on specific environmental conditions.
