Helping To Care

... detect wandering residents and alert carers

2900 DoorAlert+ Door Monitor

Detect wandering residents and alert carers in private homes, aged care facilities or hospitals. Automatically lock the door (optional) when a monitored resident approaches, while providing unrestricted access for everyone else.

2900 DOORALERT+ FEATURES

- Fast 'Plug & Play' configuration & setup.
- Automatically detects wandering residents and alerts carers.
- Can be connected to a nurse call system and electronic locking devices.
- Easily adjustable detection range.
- Fully wireless – no cabling required for easy installation, configuration, operation, expansions and upgrades.
- Monitor from 1 to 1,000 residents.
- Individually identifies each resident (when used with LRCS Software).
- Programmable with area code, door number, lock time (optional electronic lock not included) and door open too long (DOTL) alerts.
- Flashing LEDs and adjustable audible alarm.
- Magnetic door contact input can inhibit alarm activation if the door is closed.
- Options include: 2643 Caregiver Reset Key, 2434 Smartguard Keypad, 2575 Reset Transmitter.
- Night Mode – To protect a facility at night, any monitored door opened will alert staff / caregivers.
- Alarm bypass allows caregiver to escort residents through a protected door without activating an alarm.
- Anti-tailgating functionality prevents resident from following staff out a monitored door.
