Helping To Care

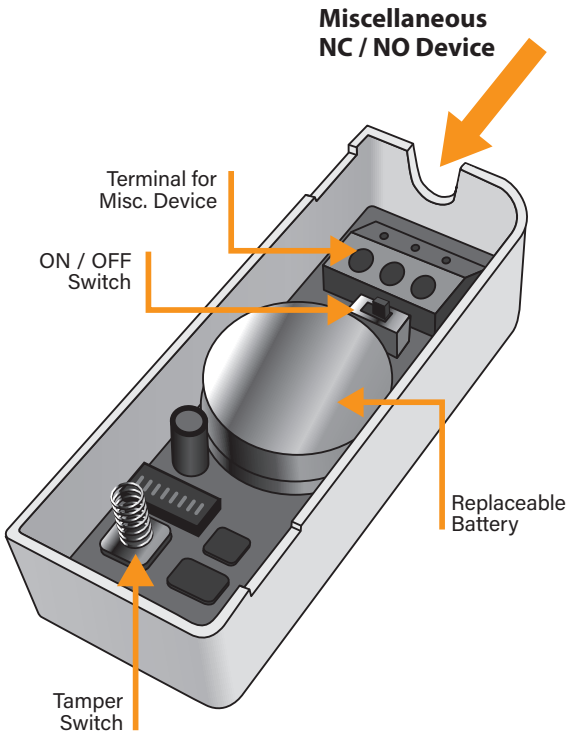

... turn any third party alarm device into a wireless transmitter

2698 Universal Transmitter

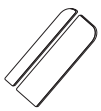

This versatile transmitter can be used with 100s of different devices to turn a local alarm output into a wireless alarm.

- Use of your own miscellaneous NC / NO device.
- Rapid, low cost, user friendly setup requires no cabling or specialist programming.
- Included magnetic switch for protecting doors, windows, fridges, cupboards - anything that opens.
- Button provides reset, pause & escort functionality.
- Button can be disabled.
- Auto reset option.
- 2 colour (red / green) status LED.
- Fully supervised wireless signal - reports low battery and device lost, making it suitable for critical applications.
- Changeable battery (CR2477).
- Battery life: 1 year (nominal)
- Tamper protection causes alarm if casing is opened.
- Double sided tape included for easy mounting.
